

CERTIFICATE OF CRYPTOGRAPHIC AUTHENTICITY

Generated by ProofCore Protocol (proofcore.org)

1. ASSET IDENTIFICATION

Asset 1:

File Name: message.html
File Size: 3412 Bytes
SHA-256 Hash: 6001835047a8bc5f1eb969fcbd07ea5048ece4bfb1e232daa50d62bd713ed645

1.1 TELEGRAM FORENSIC EXTRACT

Captured By (User ID): 8773333264
Captured By (Username): @proofcore_official

--- CAPTURED TELEGRAM METADATA ---

Source Type: Public Channel
Channel Name: Pavel Durov (@durov)
Reported Source ID: -1001006503122
Reported Post Date: 2024-07-29 19:59:20 UTC
Original Message ID: 339
Source Avatar Hash: 0ae7244a713b5d1336907a8732ff7e18342208ad601bdb80555f08b43c2d4727

2. ON-CHAIN ANCHORING (TON BLOCKCHAIN)

Captured At (Server): 2026-09-02 13:10:54 UTC
Anchored At (Blockchain): 2026-09-02 13:11:01 UTC
Merkle Root: 591d6ab5ca81185eebf8dee741fb4b0c34e5f685e1ca13c5d6ee4d8f763084f5
Transaction Hash: ace68a59ad312d1e713e792fc5f7a7d18c5c53126597e87afecdb7a62ca23fe0

3. LEGAL & EVIDENTIARY CONTEXT

This certificate records the cryptographic identity, captured metadata, and public blockchain anchoring of the preserved digital artifact. It is designed to support independent verification and evidentiary review. Applicable evidentiary requirements vary by jurisdiction and proceeding.

ProofCore does not represent that this certificate constitutes a qualified trust service, qualified electronic timestamp, qualified electronic ledger, or an automatic guarantee of admissibility under any particular legal regime.

Evidentiary Context Frameworks: US FRE 902(13)/(14); EU eIDAS framework (electronic timestamps & ledgers); UNCITRAL MLETR; UK Civil Evidence Act 1995.

System-generated on 2026-09-03 14:00:57 UTC.
To independently verify the integrity of the asset against the blockchain state, scan the Web QR code (Left) or TON TX QR code (Right) or use offline tools.
